Re: HEADstrong Foundation – 200 S. Chester Road, Swarthmore PA

Dear Ms. Pratt,

This company has agreed to provide the services below to the HEADstrong Foundation in connection with the renovation of its property located at 200 S. Chester Road in Swarthmore. Renovation plans are still in process. The Foundation has advised us that they will provide those plans to you when they are ready to be submitted for approval and permitting.

Services: We will provide spackling and painting services. I have inspected the property and do not see any visible lead concerns. Lead testing was conducted throughout the property and results were negative.

We are a licensed contractor in the state of Pennsylvania under license # PA07660.

We are providing all of our services to the Foundation on a volunteer basis. We will not receive any financial consideration for this work. The Foundation will pay for permits, its own insurance and any materials that are not donated by this company or others.

Please contact me at the phone number listed above if you have any questions.

Very truly yours,

Anthony Lebo  
Principal
